BJ Messier said he has been in contact with The Sharing Center on Highway C in Trevor, WI. They are in need of paper products i.e. toilet paper, paper towels, etc. At this time they have plenty of food.

On December 21st The Sharing Center serves a Holiday Dinner at Marengo's in New Munster, WI. Volunteers are welcome. Contact 262-862-7732 for more information.

Dick Krueger made a motion to table the donations and also keep a reserve fund for some real needs after the first of the year. Motion seconded by MaryAnn Messier and passed by majority of the group.

SECRETARIES CORNER

As temperatures change, our habits often change with them, and everything from sleeping to how much we eat can be affected. Exercise can help address, prevent or lessen the risk of a host of diseases and illnesses - including mild to moderate depression. Walking on a treadmill or riding a stationary bike for 30 minutes several times per week may be as effective as taking antidepressant medications or using cognitive-behavioral therapy. While moderately intense aerobic exercise has the best results, any exercise is beneficial. Even those performing low-intensity aerobic workouts and stretching can show improvement. Try walking especially outdoors, for at least 30 minutes per day, five days a week. Try it for a few weeks and see how it affects your mood.

Taking supplements also helps. While there is ongoing debate over optimal use of supplements and their effectiveness, and while supplements can not take the place of a healthy diet, here are a variety of reasons why they are good:

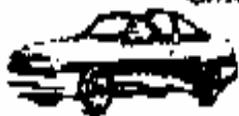

- A good daily multivitamin/multi-mineral supplement can work as insurance against gaps in the diet - for example, to cover those days when you are on the road and simply can't get the fruits and vegetables you need.
- The more regularly we supply our bodies with antioxidants and phytonutrients, the better our nutritional requirements will be met on a daily basis, and the better our overall health will be.
- Supplements can provide natural therapeutic agents in optimal dosages that may be difficult to obtain from diet alone, and that may help prevent and treat age-related diseases.

Have a safe Holiday Season and a healthy, prosperous New Year.
